UWA Class2Go: Introduction to Databases

Statement of Accomplishment

Name: Michael Braun

Congratulations! You have successfully earned a distinction in Stanford University's free online course Introduction to Databases, offered in July 2013. To successfully earn a distinction in this free online class, students were required to participate in the course and obtain a greater than 75% pass rate in assignments, quizzes and exams.

Associate Professor David Glance

Please note: this online offering of Introduction to Databases does not confer credit for any course or degree of The University of Western Australia or affirm that you were enrolled as a University of Western Australia student, nor does it verify the identity of the student who took the course.
